## Snow Removal

Sandy City Parks Division is responsible for removing snow at over 90 locations throughout the city.

Protocol for snow removal is as follows:

- Initial Response: Sidewalks and parking lots for city-owned buildings followed by school walkways
- Second Response: Jogging paths and parking lots in city parks and other walkways throughout the city

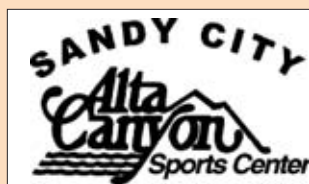

Crews work hard to clear snow from all paved sections of the city's paved trail system as time and resources allow. If snow continues to fall, secondary response locations may not be accessed for several days. It is our hope that locations can be reached within a reasonable timeframe and that any safety issues can be resolved quickly.

Please call the following with questions on snow removal:
